

Ballarat Family Medical Centre Privacy Policy

Current as of: 27/07/2026

The objective of this document is to provide you, our patient, with clear information on how your personal information is collected and used within the practice. Occasionally we also need to share your personal information to involve others in your healthcare and this policy outlines when, how, and why we share your information.

1. Who can I contact about this policy?

For enquiries concerning this policy, you can contact

Ballarat Family Medical Centre 204 Windermere street, Ballarat 3350

Email: admin@ballaratclinic.com.au

2. When and why is your consent necessary?

When you register as a patient of this practice, you provide consent for the GPs and practice staff to access and use your personal information to facilitate the delivery of healthcare. Access to your personal information is restricted to practice team members who require it for your care. If we ever use your personal information for purposes other than outlined in this document, we will obtain additional consent from you.

Where digital tools, such as an AI clinical scribe, are used during your consultation, your GP will obtain your verbal consent before the tool is activated. You may decline or withdraw your consent at any time without affecting the healthcare you receive.

It is important to us that as our patient, you understand why we collect and use your personal information.

By acknowledging this Privacy Policy you consent to us collecting, holding, using, retaining and disclosing your personal information in the manners described below.

3. Why do we collect, use, store, and share your personal information?

The practice collects, uses, stores, and shares your personal information primarily to manage your health safely and effectively. This includes providing healthcare services, managing medical records, and ensuring accurate billing and payments. Additionally, we may utilise your information for internal quality and safety improvement processes such as practice audits, accreditation purposes, and staff training to maintain high-quality service standards.

4. What personal information is collected?

The information we will collect about you includes your:

- names, date of birth, addresses, contact details
- medical information including medical history, medicines, allergies, and adverse reactions immunisations, social history, family history and risk factors
- Medicare number (where available) for identification and claiming purposes
- healthcare identifier numbers
- health fund details.

What is a patient health record?

A patient health record is the complete record of information held by Ballarat Family Medical Centre that relates to your health, assessment, diagnosis, treatment, care and ongoing management. It includes all clinical information created or received by the practice in any format (electronic, paper or scanned) that is necessary to support safe, high-quality and continuous patient care.

A patient health record may include, but is not limited to:

- consultation notes and clinical observations;
- diagnoses and treatment plans;
- medications and prescriptions;
- pathology and diagnostic imaging requests and results;
- referrals, specialist correspondence and hospital discharge summaries;
- immunisation records;
- care plans and health assessments;
- allergies and adverse reactions;
- clinical recalls and reminders; and
- consent documentation relevant to your healthcare.

5. Can you deal with us anonymously?

You can deal with us anonymously or under a pseudonym unless it is impracticable for us to do so or unless we are required or authorised by law to only deal with identified individuals.

6. How is personal information collected?

The practice may collect your personal information in several different ways:

When you make your first appointment, the practice team will collect your personal and demographic information via your registration.

We may also collect your personal information when you visit our website, send us an email or SMS, telephone us, make an online appointment, or communicate with us using social media.

In some circumstances, personal information may also be collected from other sources, including:

- Your guardian or responsible person.
- Other involved healthcare providers, such as specialists, allied health professionals, hospitals, community health services, and pathology and diagnostic imaging services.
- Your health fund, Medicare, or the Department of Veterans' Affairs (if relevant).
- While providing medical services, further personal information may be collected via:
 - electronic prescribing
 - My Health Record
 - online appointments.

Various types of images may be collected and used, including:

- **CCTV footage:** Collected from our premises for security and safety purpose
- **Photos and medical images:** These can be taken using personal devices for medical purposes, following the guidelines outlined in our guide on using personal devices for medical images.

7. When, why and with whom do we share your personal information?

We sometimes share your personal information:

- with third parties for business purposes, such as accreditation agencies or information technology providers – these third parties are required to comply with APPs and this policy
- with other healthcare providers (e.g. In referral letters)
- when it is required or authorised by law (e.g. court subpoenas)
- when it is necessary to lessen or prevent a serious threat to a patient's life, health or safety or public health or safety, or it is impractical to obtain the patient's consent
- to assist in locating a missing person
- to establish, exercise or defend an equitable claim
- for the purpose of confidential dispute resolution process
- When it is a statutory requirement to share certain personal information (e.g. some diseases require mandatory notification)

- When it is provision of medical services, through electronic prescribing, My Health Record (e.g. via Shared Health Summary, Event Summary).

Only people who need to access your personal information will be able to do so. Other than providing medical services or as otherwise described in this policy, the practice will not share personal information with any third party without your consent.

We do not share your personal information with anyone outside Australia (unless under exceptional circumstances that are permitted by law) without your consent.

8. Will your information be used for marketing purposes?

The practice will not use your personal information for marketing any goods or services directly to you without your express consent. If you do consent, you may opt out of direct marketing at any time by notifying the practice in writing.

9. How is your information used to improve services?

The practice may use your personal information to improve the quality of the services offered to patients through research, analysis of patient data for quality improvement and for training activities with the practice team

We may provide de-identified data to other organisations to improve population health outcomes. If we provide this information to other organisations patients cannot be identified from the information we share, the information is secure and is stored within Australia. You can let reception staff know if you do not want your de-identified information included.

At times, general practices are approached by research teams to recruit eligible patients into specific studies which require access to identifiable information. You may be approached by a member of our practice team to participate in research. Researchers will not approach you directly without your express consent having been provided to the practice. If you provide consent, you would then receive specific information on the research project and how your personal health information will be used, at which point you can decide to participate or not participate in the research project.

10. How are document automation technologies used?

Document automation is where systems use existing data to generate electronic documents relating to medical conditions and healthcare.

The practice uses document automation technologies to create documents such as referrals, which are sent to other healthcare providers. These documents contain only your relevant medical information.

These document automation technologies are used through secure medical software **HealthLink**

All users of the medical software have their own unique user credentials and password and can only access information that is relevant to their role in the practice team.

The practice complies with the Australian privacy legislation and APPs to protect your information.

All data, both electronic and paper are stored and managed in accordance with the Royal Australian College of General Practitioners [Privacy and managing health information guidance](#).

11. How are Artificial Intelligence (AI) Scribes used?

Ballarat Family Medical Centre uses an Artificial Intelligence (AI) scribe to assist GPs in documenting clinical consultations. The AI scribe uses an audio recording of the consultation to generate a draft clinical note, which is then reviewed, amended where necessary, and approved by the treating GP before it becomes part of your patient health record.

Our practice currently uses **Lyrebird Scribe**.

How is your consent obtained?

Before the AI scribe is activated, your GP will explain that an AI scribe is being used during your consultation and ask for your verbal consent.

Patients have the right to:

- ask questions about how the AI scribe works;
- decline the use of the AI scribe without affecting the care they receive;
- withdraw their consent at any time during the consultation.

If you choose not to consent, your GP will document the consultation using traditional clinical note-taking methods.

Privacy and security

Lyrebird Scribe:

- stores and processes information securely within Australia;
- destroys the audio recording once the transcription has been completed;
- removes personal identifying information where appropriate during transcription; and
- is used solely to support the provision of healthcare.

The AI scribe does **not** make clinical decisions. It only assists with documentation. Your GP remains responsible for reviewing, editing and approving all clinical notes before they are saved in your patient health record.

12. How is your personal information stored and protected?

Your personal information may be stored in various forms.

- electronic records
- visual records (X-rays, CT scans, videos and photos)

The practice stores all personal information securely.

Our practice stores all personal information securely.

It is stored in electronic format, in protected information systems or in hard copy format in a secured environment. It is protected by use of passwords, secure cabinets (where applicable) , confidentiality agreements for staff and contractors.

13. How can you access and correct your personal information at the practice?

You have the right to request access to, and correction of, your personal information.
Our practice acknowledges patients may request access to their medical records.
We require you to put this request in writing a medical information request release form and our practice will respond within 30 days.
Our practice will take reasonable steps to correct your personal information where the information is not accurate or up to date.
From time to time, we will ask you to verify that your personal information held by our practice is correct and current.
You may also request that we correct or update your information, and you should make such requests in writing to admin@ballaratclinic.com.au

14. How can you lodge a privacy-related complaint, and how will the complaint be handled at the practice?

We take complaints and concerns regarding privacy seriously. You should express any privacy concerns you may have. We will then attempt to resolve it in accordance with the resolution procedure.

If you do not feel we have resolved your issue You may also contact the Office of the Australian Information Commissioner. The Office of the Australian Information Commissioner will require you to give them time to respond before they investigate. For further information visit www.oaic.gov.au or call the OAIC (Office of the Australian Information Commissioner) on 1300 363 992.

15. How is privacy on the website maintained?

At Ballarat Family Medical Centre, any personal information you share with us through website, email, and social media, is handled securely and confidentially. This practice uses analytics and cookies.

16. Policy review statement

Our privacy policy is regularly reviewed to ensure compliance with current obligations.

If any changes are made:

- They will be reflected on the website.
- Significant changes may be communicated directly to patients via email or other means.

Please check the policy periodically for updates. If you have any questions, feel free to contact us.
